DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Farjami on 5/23/06.

2. The application has been amended as follows:

Claims 19 and 20 have been cancelled.

Allowable Subject Matter

3. Claims 1-3, 6-8, 11, 13-15, and 18 (renumbered claims 1-11 respectively) are allowed.

Art Unit: 2181

4. The following is an examiner's statement of reasons for allowance:

5. The following is a statement of reasons for the indication of allowable subject matter: Tremblay et al. (U.S. Patent Application Publication No. 2001/0042190), the closest reference, and the other prior art do not teach or fairly suggest: an operand residing in a first plurality of read ports is used by only one execution unit in a first data path block and by only one execution unit in a second data path block, during a single clock cycle (as described in claim 1; and claims 7 and 11 recite the corresponding limitations). Further the combination of the above limitations with all of the other limitations in the respective independent claims is not obvious.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
